Dear Ralf,

When we met Ralf, we were looking for an Off Road Caravan. We planned to travel around Australia and needed something strong but light, easy to tour because we were beginners in caravanning. We explained to Ralf we need a lot of storage and we explained our project and then ordered a 22foot caravan. Ralf designed and built this well, light with aluminium frames, very safe and comfortable.

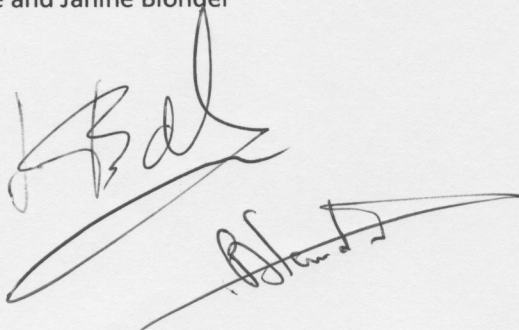

Today after one year and 20,000 km, we are very happy about the handling of this caravan. We get over hard tracks in the North of Australia and we had a nice time along the Western Coast and in the National Parks. In Cunnamulla we got through a highly flooded area, with ease.

So we thank Ralf and Free Spirit for their work and for their patience about our English speaking – and now we are ready for our other section of the trip across Australia.

We would wish that Ralf and Free Spirit could allow a lot of the people to enjoy your big and beautiful country – towing a strong, light and comfortable caravan, highly recommended by us.

Kind regards

Jean-Claude and Janine Blondel
